

VIRTUALLY INDESTRUCTIBLE

Self-Wrapping Cable Cover

The premium solution for protecting MIG gun cables, offering maximum flexibility and durability. This heavy-duty, cut-resistant cable cover is engineered to safeguard cable assemblies from significant impacts and punctures, making it ideal for demanding environments. Tested and refined, the Lightning® Cable Cover ensures robust performance that excels in the field.

Key Features

- **Impact Resistant:** Withstands heavy impact to ensure long-lasting performance
- **Quick & Easy Installation:** Self-wrapping design means no tools are needed for a fast, secure fit.
- **Puncture-Resistant:** Built to resist punctures, keeping your cable protected in the toughest environments.
- **Extreme Abrasion Resistance:** Engineered for high durability in harsh conditions.
- **UV and Chemical Resistant:** Maintains integrity under exposure to chemicals and sunlight.
- **Cut-Through Resistance:** Withstands over 325 lbs. of force, offering top-tier protection against cuts.

Flexibility Meets Functionality

Can be installed **after the MIG gun is assembled**, allowing for fast retrofits or replacements.

Reusable: In the event of a gun failure, the cover can be easily transferred to a new gun, reducing waste and downtime.

Order by the foot or 400-foot roll in two colors

Part #	Color
LTG-CC-PO	Orange
LTG-CC-PB	Black
LTG-CC-PO-400	Orange 400-Foot Roll
LTG-CC-PB-400	Black 400-Foot Roll
